PROFILE

I'm a motivated and creative full-stack web developer with a strong interest in UI/UX design. Coming from a small town, I've always been driven by curiosity and a desire to build things that make an impact. I enjoy turning ideas into functional, user-friendly web experiences and constantly work on improving my skills and design sense. I'm passionate about learning, collaborating, and growing into a well-rounded developer who can bring both design and technology together.

EDUCATION

Bachelor of Computer Applications   08/2023 – Present
Dev Bhoomi Uttarakhand University   Dehradun, India
Current CGPA: 8.70 / 10 (after 4 semesters)

High School   03/2021 – 04/2023
GD Birla Memorial School   Ranikhet, India

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer Intern   06/2025 – 09/2025
Unified Mentor Private Limited

- Organized interactive activities and small projects to make learning hands-on and practical.

- Developed interactive projects:

- Teacher-Student Appointment Booking System — full CRUD functionality and responsive design.

- Gym Management System (Administration) — managed members, trainers, and schedules.

Applied front-end and back-end technologies including HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL.

Volunteer Instructor – Social Internship   08/2024 – 08/2024
GD Birla Memorial School
A program designed to introduce school students to technology, web development, and UI/UX principles through interactive sessions and workshops.

- Conducted engaging sessions on UI/UX design and web development, helping students understand website creation and design principles.

- Organized interactive activities and small projects to make learning hands-on and practical.

- Mentored students in problem-solving, creativity, and digital skills, fostering interest in technology careers.

Assisted in planning and managing workshop schedules and group activities.

SKILLS

- Front-End: HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS, Figma, Framer

- Back-End: Node.js, Express.js, MongoDB, MySQL, PHP

- Tools: VS Code, Docker, Git/GitHub, GitLab, npm, WordPress, web pack

PROJECTS

E-Commerce Website

A comprehensive e-commerce website project focused on providing user-friendly shopping experience

- Implemented **dynamic cart updates and checkout calculations** using JavaScript and React.js.
- Developed **responsive design** to ensure seamless experience on both mobile and desktop devices.
- Integrated **product management and search functionality** for efficient browsing.
- Optimized **performance and accessibility**, improving load times and usability for all users.

Crypto Horizon

A responsive web application for tracking live cryptocurrency prices and trends in real time, providing users with up-to-date market information through a clean, user-friendly interface.

- Implemented **interactive charts and dynamic price updates** using React.js and external APIs.
- Integrated **real-time market data** to display live cryptocurrency prices and trends.
- Optimized **responsive design** for seamless use on both desktop and mobile devices.
- Enhanced **user experience and accessibility** with intuitive navigation and visual cues.

Space Wars

An engaging web game where players dodge meteors and collect stars, testing reflexes and strategic movement while competing for high scores.

- Developed interactive gameplay with **increasing difficulty** as players collect more stars.
- Implemented a **leaderboard system** to track and display top scores.
- Optimized **smooth animations and responsive controls** using JavaScript.
- Designed **user-friendly interface** to enhance engagement and replayability.
